

YOUR PROJECT MAY QUALIFY FOR GRANTS AND/OR LOW-COST SUBSIDIZED FINANCING

CP&Y's **Client Resource and Funding Team** can help maximize cost savings for your project compared to open market financing by leveraging state and federal funding opportunities from a range of sources including the Texas Water Development Board (TWDB), the Texas Department of Agriculture (TDA), the US Department of Agriculture Rural Development Office (USDA-RD) and more. With billions in federal Infrastructure Act funds passing through the TWDB over the next few years, now is a great time to consider pursuing assistance for projects of all sizes.

Let us help you identify the best funding sources for your project, including support for **CIP projects** as well as **asset management and emergency preparedness planning**.

Our staff brings decades of direct funding agency experience to help you manage the requirements associated with public funding and deliver substantial cost savings to your community.

George Jones
gjones@cpyi.com
512.431.5168

George has more than 40 years of experience in the engineering and funding of infrastructure projects. During his 20 years at TWDB, he created the Program Guidance Manuals and

directed the Programs Administration section for the distribution of State Revolving Funds. He can help with planning and developing funding schedules, budgets and financial applications and implementing and overseeing compliance with the funding programs processes.

Tom Entsminger
tentsminger@cpyi.com
512.492.6813

Tom spent 13 years developing and managing state financial assistance programs, including over seven years at TWDB and six working with Community Development Block Grant

(CDBG) funding at TDA. He has worked directly on the development of scoring systems used to rank projects for TWDB funding and played a key role in the implementation of the State Water Implementation Fund for Texas (SWIFT) and Flood Infrastructure Fund (FIF) programs.

LET CP&Y HELP REDUCE FINANCING COSTS TO SAVE MONEY FOR YOUR UTILITY AND ITS CUSTOMERS

As leaders in the water/wastewater industry, our firm provides leading-edge water and wastewater solutions that enable our clients to be responsible stewards of the earth's water resources.

During the past five years, CP&Y has secured and managed more than **\$500 million in TWDB funding** for projects all over Texas. Our services include identifying grant and loan opportunities, application preparation and funding management support.

Infrastructure Act funds for water and wastewater projects will pass through TWDB, and the first recipients will be those who submit Project Information Forms (PIFs) by March 4, 2022.

State Revolving Fund (SRF) programs offer interest rates subsidized by 30%-40% compared to open market.

Submitting a PIF is the first step in the application process.

March 4, 2022, is this year's deadline to submit PIFs for TWDB's SRF programs.
